

Esempio di LAN domestica simulata con Cisco Packet Tracer 7.0

Andrei D.

3°a

Che cosa è Packet Tracert?

Cisco Packet Tracer è un software didattico distribuito agli studenti ed istruttori del Programma Cisco Networking Academy per l'emulazione di apparati di rete CISCO.

CISCO

Interfaccia grafica

The screenshot shows the Cisco Packet Tracer interface with several annotations:

- Logical Tab:** A yellow bar at the top left with the word "Logical" and a network diagram icon.
- Toolbar:** A blue bar below the Logical tab containing various icons for file operations, navigation, and simulation.
- Navigation Buttons:** A row of buttons below the toolbar: "Back", "[Root]", "New Cluster", "Move Object", "Set Tiled Background", "Viewport", and "Environment: 21:00:00".
- Annotations:**
 - Three arrows point to the top-right toolbar icons: "Seleziona i singoli dispositivi." (Select individual devices), "Aggiunge note nella topologia." (Add notes to the topology), and "Rimuove dispositivi e connessioni." (Remove devices and connections).
 - An arrow points to the "Ping" icon: "Effettua un ping fra 2 dispositivi." (Perform a ping between 2 devices).
 - An arrow points to the "Simulation" icon: "Manda il programma in modalita simulazione." (Send the program to simulation mode).
 - Two arrows point to the main workspace: "Qui si possono scegliere le topologie di apparati o connessioni." (Here you can choose device topologies or connections) and "Da questo box si possono selezionare i singoli dispositivi o connessioni da inserire." (From this box you can select individual devices or connections to insert).
- Bottom Panel:** A yellow bar at the bottom with "Time: 00:01:31", "Power Cycle Devices", and "Fast Forward Time" buttons. Below it is a "Realtime" section with a table and a "Scenario 0" dropdown.
- Device Selection:** A row of device icons (routers and switches) with labels like "1941", "2901", "2911", "8191OX", "819HGW", "829", "1240", "Generic", "Generic", "1841", and "2620XM". Below them is a text box: "(Select a Device to Drag and Drop to the Workspace)".
